

DO NOT weaken the DO NOT CALL LAW. Most of these telemarketers do not take "no thank-you, I'm not interested" for an answer. I pay alot of money each month for phone service, for my convenience, not to be inconvenienced. I also pay extra to have an unlisted number and they still managed to get through. Since I signed up on the DO NOT CALL list I am no longer interrupted by those annoying calls. It has been wonderful. Please do not take away our prescious time that we as Americans need to spend with our families. Thank You
